

# BACK TO SCHOOL

## After School Classes

So fun, won't feel like learning!!

Your child's learning doesn't need to stop when the bell rings. Bricks 4 Kidz® taps into your child's potential by *encouraging their curiosity and creativity* in and out of the classroom.

Designed and created by teachers, architects and engineering professionals, the Bricks 4 Kidz hands-on curriculum reinforces S.T.E.M. based principles using LEGO® Bricks.

Lessons from math, science, language arts, and social studies are integrated and discussed. Themes such as Transportation, Space, Inventions and Machines and more provide variety and ensure a high level of interest and enthusiasm amongst our students.

In our classes, students are able to construct machines, buildings, animals, and other models using LEGO® bricks and the Bricks 4 Kidz proprietary designs and plans. Give your child something that is educational and fun – enroll now!!

Note: All models will be new - no models from a previous session will be repeated!

**Ages:** 5-12

**Day & Time:**

Wednesday 3:30-4:30 PM
